Your Pet is Family

Every moment together matters.

This guide will help you quickly set up your device and start enjoying a safer, more connected journey with your pet.

Let's get started.

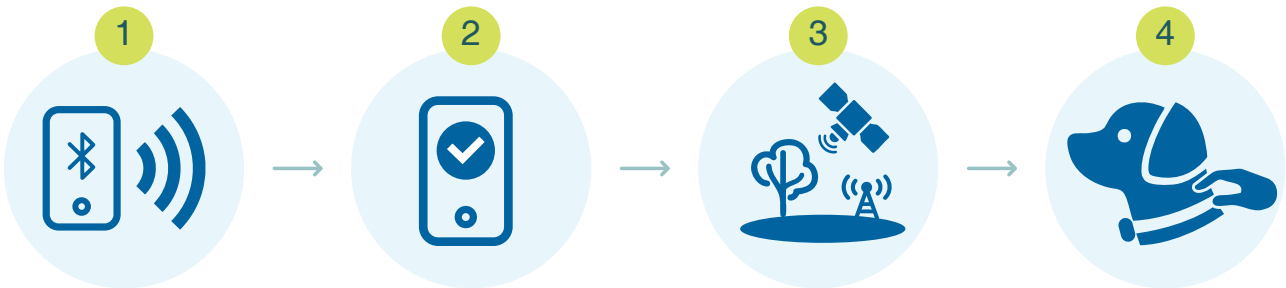

- Keep away from children.
- Do not let pets chew or swallow.
- Stop using it if damaged.
- Ensure a safe, comfortable collar fit.

Before You Start

Charge your tracker & install the ABBIDOT app before you begin.

- Real-time GPS Tracking
- LTE Connectivity
- Location History
- Smart Alerts

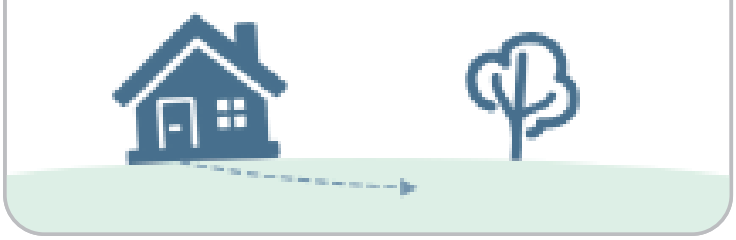

A subscription is required for real-time GPS tracking. GPS determines your pet's location, and cellular connectivity delivers it to your app.

Move Outdoors

Ensure a clear view of the sky for the initial GPS fix and cellular connection.

First GPS Location

Your first fix may take up to 15 minutes. Stay outdoors with a clear view of the sky until positioning is complete.

GPS Connected
Flashing Blue

Initial Network Connection

Cellular connection may take a few minutes.
Tracking starts when GPS and cellular are connected.

Cellular Connected
Flashing Blue

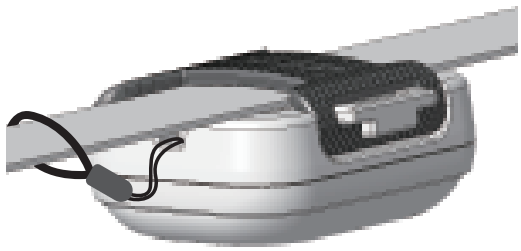

The yellow light flashes while GPS or cellular is connecting.
The blue light flashes twice when GPS and cellular are connected.

Attach the Tracker

Attach the tracker securely before every walk.

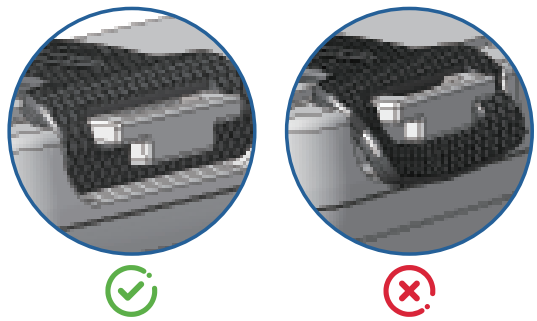

Attach to Rubber Ring

- Align and snap the tracker into the ring
- Press the edges firmly to secure it

Mount to Collar Strap

- Thread the strap through the tracker loop
- (Optional) Add the safety lanyard

Proper Fit, Better Signal

Collar Fit

- Ensure a snug, comfortable fit with room for two fingers.

GPS Signal

- Keep the tracker on top of your dog's neck for a better signal.

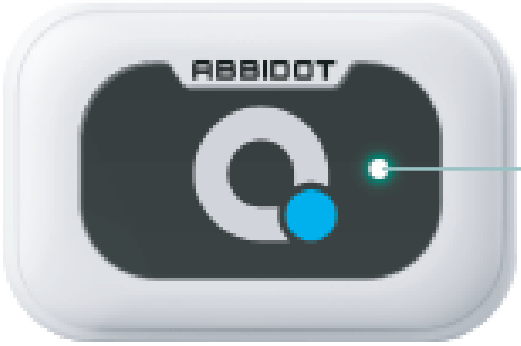

Know Your Tracker

Power On

Charge fully, then unplug to power on.
After first-time startup, shake to power on.
