PMZ0102-00 EN Model: AB-G40

Your Pet is Family

Every moment together matters.

This guide will help you quickly set up your device and start enjoying a safer, more connected journey with your pet.

Let's get started.

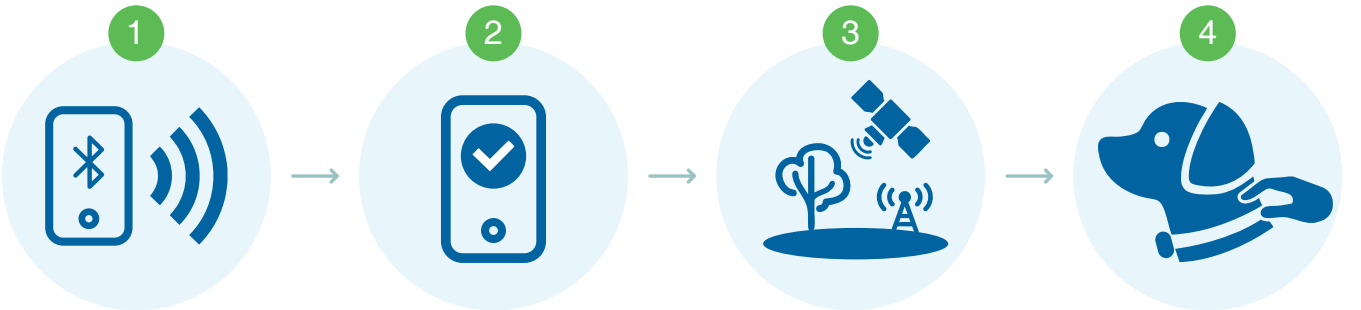

- Keep out of reach of children.
- Do not allow pets to chew on or swallow the tracker.
- Stop using it if damaged.
- Ensure a safe, comfortable collar fit.

Before You Start

Charge your tracker and install the ABBIDOT app before you begin.

Press and hold the button for 3 seconds

Select Your Device

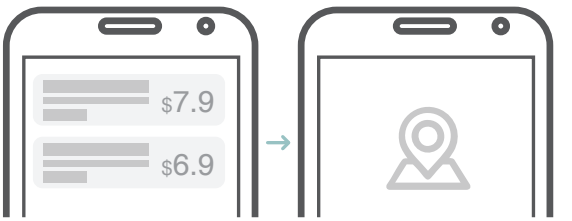

Choose your tracker in the app

Paired

Your tracker is paired! Ready to activate

Activate Your Plan

Subscription: **30-day** money-back guarantee from activation.

- Live GPS Tracking
- LTE Connectivity
- Location History
- Smart Alerts

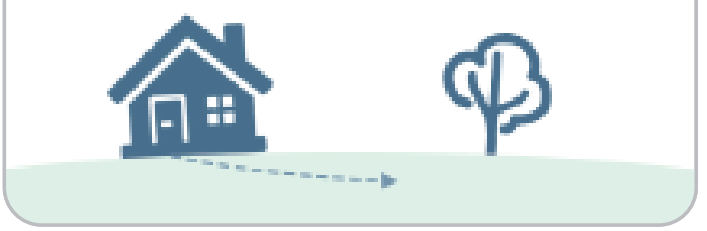

A subscription is required for real-time GPS tracking. GPS determines your pet's location, and cellular connectivity delivers it to your app.

Move Outdoors

Ensure a clear view of the sky for the initial GPS fix and cellular connection.

First GPS Location

Your first fix may take up to 15 minutes. Stay outdoors with a clear view of the sky until positioning is complete.

GPS Connected
Flashing Green

Initial Network Connection

Cellular connection may take a few minutes.
Tracking starts once GPS has a fix and cellular is connected.

Cellular Connected
Flashing Green

The yellow light flashes while GPS or cellular is connecting.
The green light flashes twice when GPS and cellular are connected.
Wait until you see two green flashes in a row before you start tracking.

Attach the Tracker

Attach the tracker securely before every walk.

Video Guides

Scan to watch step-by-step videos for proper attachment and fit.

Proper Fit, Better Signal

Collar Fit

- Adjust the collar for a snug, comfortable fit with room for two fingers.

GPS Signal

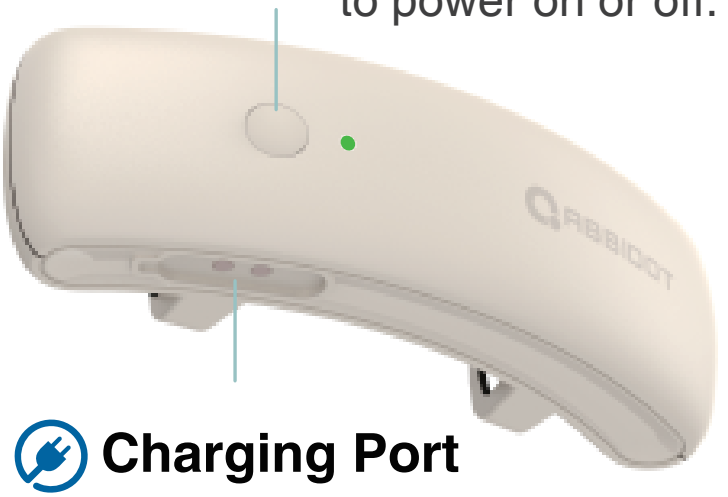

- Keep the tracker on top of your dog's neck for a better signal.
